

Are You Creative?

The Graphic Design and Publishing Industries have always held Bell Institute Graphic Design graduates in high esteem with advertising and design companies hand-picking graduates year after year. The demand for our technically capable and highly creative Graphic Designers, for instance, many of our Design students have found opportunities in Major Media Houses in Kenya and East Africa.

Graduate career opportunities include such roles as Graphic Designer, Graphic Artist, Illustrator, Layout Artist, Pre-press Specialist and Photo Retouching.

By the end of the course, you will and become expert in Graphic Programs such as pagemaker, Corel Draw, Photoshop, Illustrator, Adobe InDesign, Quark -Express, Macromedia Flash, 3D Studiomax, Maya and other high level Adobe Design software. We make use of macintosh Computer in most of our Design Class and Window based Pcs.

Hardware tools utilized for the Design courses includes: Macintosh Computers, Mac Operating systems, Digital Scanners, Digital Cameras, Video cameras, A4 and A3 Laser Jets Color Printers, Drawing books, Internet Resources and Digital Design Electronic Boards and pads

Our students gets free access to internet and are able to download various JPEGs for graphic projects..

Why not join us today?
